# Career Summary

**Name:** Arpit Kumar Chourdiya
**Mobile:** +819080572786
**Email:** arpit.chourdiya@yahoo.com
**Location:** Tokyo, Japan

---

### 1. Professional Summary

With over 18 years of experience in consulting, product development, and IT services, I have worked extensively with over 10 pharmaceutical companies worldwide, including 8 in Japan. My expertise spans implementing large-scale digital and IT solutions, including system architecture design, business intelligence, data warehousing, data governance, analytics platforms, and omnichannel strategies. Currently serving as a Business Technology Manager at ZS Associates, I lead cross-functional teams, manage business development, and oversee project implementation for Japanese clients.

---

### 2. Professional Experience Overview

- **July 2017 – Present:** ZS Associates Japan
- **July 2011 – June 2017:** ZS Associates India
- **April 2008 – July 2011:** Hewlett-Packard (HP Software)
- **February 2006 – April 2008:** Satyam Computer Services

---

### 3. Relevant Experience and Knowledge

- Proven leadership in implementing large-scale IT, digital and business intelligence solutions. Leading 20+ team members (Japan and India) across multiple programs
- Experience in leading end to end operation support for ComEx applications
- Expertise in pharmaceutical (sales and marketing), finance and IT infrastructure
- Proficiency in cloud technologies (AWS, Azure), CRM systems (SFDC, Veeva), and analytics tools (Tableau, Microstrategy, etc.)
- Extensive experience in data architecture and modeling, data warehouse, data migration, and governance
- Experienced in managing the entire product lifecycle, from ideation to successful launch
- Experienced in Software as a Services
- Experienced in implementing insight generation (Next Best Action), Omni-channel strategy and AI/ML models (Neural Network, LSTM, etc.)
- Experience in business development with annual selling credits of $1.5MM–$2.5MM

---

**4. Technical Skills**

| Skill | | Experience | Skill | | Experience |
|---|---|---|---|---|---|
| Cloud | AWS | 8+ | Reporting | Microstrategy | 5+ |
| | Azure | 2+ | | Tableau | 2+ |
| DB | Redshift | 5+ | | Qlik | 1+ |
| | Oracle | 15+ | | Business Object | 5+ |
| | SQL Server | 2+ | ETL | Snaplogic | 3+ |
| Language | SQL | 15+ | | Business Object Data Integrator | 2+ |
| CRM | Veeva, SFDC | 5+ | Data Modelling | ER Studio | 3+ |

**5. Professional Experience**

**January 2017 – Present: ZS Associates, Japan**

**Key Roles:** Account Manager, Project Manager, Data Architect & Modeler

**Key Projects:**

| **1.** | **Project Name: Product Launch Support** |
|---|---|
| **Role** | Account Manager |
| **Client** | Emerging Pharma |
| **Duration** | (06/2023) – Present |
| **Team Size** | 5 |
| **Environment / Tools** | Cloud: AWS<br>Database: Snowflake<br>BI Tools: Qlik Sense<br>CRM: Veeva |
| **Contribution** | • Facilitated workshops to gather field and home office requirements for sales and marketing dashboards supporting a first product launch<br>• Identified key KPIs and designed dashboards based on business objectives and user needs<br>• Led the implementation of dashboards using Qlik, ensuring scalability and performance<br>• Conducted System Integration Testing (SIT) and User Acceptance Testing (UAT) to ensure alignment with end-user requirements<br>• Provided operational support and addressed user inquiries to enhance dashboard efficiency and usability |
| **2.** | **Project Name: Data Modeling for Commercial and Medical Teams** |

| | |
|---|---|
| **Role** | Data Architect |
| **Client** | Global Pharma – Japan Market |
| **Duration** | (03/2024) – Present |
| **Team Size** | 3 |
| **Environment / Tools** | Data Modelling Tool: ER Studio<br>Database: Redshift |
| **Contribution** | • Designed conceptual, logical, and physical data models for data sources utilized by commercial and medical teams<br>• Conducted comprehensive reviews with business teams to validate alignment with key use cases<br>• Collaborated with IT teams to test data models, ensuring compliance with use cases and industry standards<br>• Refined data models based on feedback and documented key assumptions for future reference |
| **3.** | **Project Name: Project Management for Data Lake Implementation** |
| **Role** | Project Manager |
| **Client** | Japan Pharma |
| **Duration** | (03/2024) – Present |
| **Team Size** | 4 |
| **Environment / Tools** | Cloud: Azure<br>ETL: Databricks<br>Project Management: Confluence |
| **Contribution** | • Leading project team from onshore (client site), managing client's expectations and making sure that project is delivered on time with high quality<br>• Gathering requirement from client, designing robust and scalable solution, guiding team in build activities, helping testing team in defining test strategy to perform system integration testing and user acceptance testing<br>• Managing project scope, risk and resources<br>• Evaluating the various ETL tools available on AWS cloud and finalizing the best tool as per client's use case<br>• Designing overall Architecture for ETL solution |
| **4.** | **Project Name: NBA/NBE (Omni-channel) Implementation** |
| **Role** | Project Manager |
| **Client** | Global Pharma - Japan Affiliates (4 clients) |
| **Duration** | (06/2022) – (03/2024) |
| **Team Size** | 25 |
| **Environment / Tools** | Platform: ZS ZAIDYN<br>CRM: Veeva, SFDC |

| | |
|---|---|
| **Contribution** | • Led the implementation and configuration of ZS ZAIDYN platform for 4 pharmaceutical clients<br>• Defined business rules and identified statistical and AI/ML based next best actions aligned with client use cases<br>• Finalized data sources and business rules to implement NBA/NBE strategies effectively<br>• Led the configuration of the ZS ZAIDYN platform for prioritized NBA/NBE use cases<br>• Delivered NBA/NBE solutions to field teams through Veeva CRM, enhancing decision-making and customer engagement |
| **5.** | **Project Name: CIRRUS Program** |
| **Role** | Account Manager |
| **Client** | Global Pharma – Japan Market |
| **Duration** | (06/2017) – (12/2022) |
| **Team Size** | 20 |
| **Environment / Tools** | Cloud: AWS<br>Database: Redshift, Oracle<br>ETL: Snaplogic<br>BI Tools: Microstrategy, Tableau<br>CRM: Veeva |
| **Contribution** | • Designed the overall architecture for a data management and reporting platform<br>• Evaluated various ETL tools available on AWS Cloud and selected the optimal tool based on the client's use case<br>• Led the project team from the client site, managing client expectations and ensuring timely, high-quality project delivery<br>• Gathered client requirements, designed robust and scalable solutions, provided guidance to the team during the build phase, and assisted the testing team in defining test strategies for system integration testing (SIT) and user acceptance testing (UAT)<br>• Managed project scope, risks, and resources to ensure successful delivery<br>• Led the implementation of a data governance framework to ensure data integrity and compliance<br>• Directed the migration of data from the legacy platform to the new platform, ensuring the availability of all necessary historical data |

**July 2011 – June 2017: ZS Associates India**

**Key Roles:** Consultant, Associate Consultant

**Key Projects:**

| | |
|---|---|
| **1.** | **Project Name: CIRRUS Program** |
| **Role** | Delivery Lead |
| **Client** | Global Pharma – Japan Market |

| | |
|---|---|
| **Duration** | (06/2017) – (06/2017) |
| **Team Size** | 20 |
| **Environment / Tools** | Cloud: AWS<br>Database: Redshift, Oracle<br>ETL: Snaplogic<br>BI Tools: Microstrategy |
| **Contribution** | • Designed the overall architecture for the data warehouse to ensure scalability and performance<br>• Developed data flow diagrams, technical designs, test plans, and test cases to guide implementation<br>• Led the development team in implementing ETL code, ensuring alignment with business requirements<br>• Oversaw testing and facilitated code migration to production, ensuring seamless deployment and functionality |
| **2.** | **Project Name: Field Reporting (iPerform)** |
| **Role** | Team Lead |
| **Client** | US Pharma |
| **Duration** | (03/2014) – (05/2015) |
| **Team Size** | 10 |
| **Environment / Tools** | Database: Oracle<br>ETL: Informatica<br>BI Tools: Microstrategy |
| **Contribution** | • Led the offshore ETL team to design and implement end-to-end ETL data flows, including data extraction from source systems, transformation based on client-provided business rules, and publishing data for MicroStrategy reports<br>• Designed the overall architecture for the ETL solution, ensuring scalability, performance, and alignment with business objectives |
| **3.** | **Project Name: BI Navigator** |
| **Role** | Test Lead |
| **Client** | EU Pharma |
| **Duration** | (01/2013) – (02/2014) |
| **Team Size** | 25 |
| Environment / Tools | Database: Oracle<br>ETL: Informatica<br>BI Tools: Qlikview |
| **Contribution** | • Led the testing team to ensure quality and reliability across deliverables<br>• Designed comprehensive test plans for unit testing, system integration testing (SIT), and user acceptance testing (UAT)<br>• Developed detailed test cases for SIT and UAT, aligning with business and technical requirements |
| **4.** | **Project Name: EU Business Analytics** |
| **Role** | Reporting Lead |
| **Organization** | EU Pharma |
| **Duration** | (02/2013) – (05/2014) |

| | |
|---|---|
| **Team Size** | 30 |
| **Environment / Tools** | Database: Oracle<br>ETL: Informatica<br>BI Tools : Business Objects XI |
| **Contribution** | • Led the automated analytics team to deliver innovative solutions<br>• Designed and developed an advanced alerts engine to streamline analytics workflows<br>• Created and implemented an efficient alerts delivery module for timely notifications |
| **5.** | **Project Name: Automated Analytics** |
| **Role** | Team Lead |
| **Client** | ZS Internal |
| **Duration** | (06/2012) – (12/2012) |
| **Team Size** | 5 |
| **Environment / Tools** | Database: Oracle<br>BI Tools: Microstrategy |
| **Contribution** | • Led the automated analytics team to deliver innovative solutions<br>• Designed and developed an advanced alerts engine to streamline analytics workflows<br>• Created and implemented an efficient alerts delivery module for timely notifications |
| **6.** | **Project Name: IMT & MHS** |
| **Role** | Reporting Lead |
| **Client** | US Pharma |
| **Duration** | (07/2011) – (06/2012) |
| **Team Size** | 4 |
| **Environment / Tools** | Database: Oracle<br>BI Tools: Business Objects XI |
| **Contribution** | • Led the reporting team to deliver comprehensive data solutions<br>• Designed data models, universes, and reports tailored to client requirements<br>• Developed universes and created 30+ reports to support client operations and decision-making<br>• Managed the operation and maintenance of reports, ensuring accuracy and reliability |
| **7.** | **Project Name: Reporting Solution** |
| **Role** | Team Lead |
| **Client** | US Pharma |
| **Duration** | (07/2011) – (06/2012) |
| **Team Size** | 6 |
| **Environment / Tools** | Database: ORACLE<br>BI Tools: Business Objects XI, Business Objects Data Integrator |

| | |
|---|---|
| **Contribution** | • Led the reporting team to deliver high-quality data solutions<br>• Designed data models and ETL process flows to streamline data integration and reporting<br>• Developed ETL jobs and reports to meet business requirements<br>• Managed the operation and maintenance of ETL jobs and reports, ensuring consistent performance and reliability |

**April 2008 – July 2011: Hewlett-Packard (HP Software)**

**Role:** Senior System Engineer

**Key Projects:**

| **1.** | **Product Name: Service Health Reporter** |
|---|---|
| **Role** | Module Lead |
| **Client** | HP Internal |
| **Duration** | (04/2008) – (07/2011) |
| **Team Size** | 40 |
| **Environment / Tools** | Database :Oracle, Sybase IQ<br>BI Tools : Business Objects XI, Xcelsius |
| **Contribution** | • Designed data models tailored to various domains, ensuring optimized data organization and usability<br>• Developed Universes using Business Objects tools to support reporting databases<br>• Created comprehensive reports aligned with business requirements and domain-specific needs using Web Intelligence<br>• Collaborated with Product Architects and clients to gather and refine requirements for diverse reports and domains |

**February 2006 – April 2008: Satyam Computer Services**

**Role:** Software Engineer

**Key Projects:**

| **1.** | **Project Name: iHUB** |
|---|---|
| **Role** | Developer |
| **Client** | Satyam Finance Department |
| **Duration** | 08/2006 – 04/2008 |
| **Team Size** | 15 |
| **Environment / Tools** | Database: Oracle<br>ETL Tools: BO Data Integrator<br>BI Tools: Business Objects XI, Business Objects Web Intelligence |

| | |
|---|---|
| **Contribution** | • Designed data models tailored to various domains, ensuring optimized data organization and usability<br>• Developed Universes using Business Objects tools to support reporting databases<br>• Created comprehensive reports aligned with business requirements and domain-specific needs using Web Intelligence<br>• Collaborated with Product Architects and clients to gather and refine requirements for diverse reports and domains |
| **2.** | **Project Name: Monthly Review Report** |
| **Role** | Developer |
| **Client** | Satyam Finance Department |
| **Duration** | 06/2006 – 08/2007 |
| **Team Size** | 8 |
| **Environment / Tools** | Database: SQL Server 2000<br>ETL Tools: MS DTS<br>BI Tools: MS Analysis Services 2000 |
| **Contribution:** | • Designed, developed, and maintained ETL processes to ensure efficient data integration and transformation.<br>• Created and managed CUBES using Microsoft Analysis Services to support advanced analytics.<br>• Optimized ETL procedures and queries to enhance performance and scalability.<br>• Provided MDX queries for generating dynamic and insightful reports.<br>• Managed SQL Server 2000 databases, ensuring data integrity and reliability.<br>• Collaborated with clients to implement changes and updates, ensuring alignment with evolving requirements. |

---

**6. Certifications**

- Oracle Certified Professional
- CMMI Certification
- Various internal project management and communication training programs

---

**7. Academic Background**

| Year | Board/University | Degree | Percentage |
|---|---|---|---|
| 2001-2005 | RGPV, Bhopal | Bachelor of Engineering (Computer Science) | 69.63 |
| 2000-2001 | CBSE | 10+2 | 81.40 |
| 1998-1999 | CBSE | 10 | 78.80 |

---

**8. Self-Introduction**

As a seasoned professional with extensive experience in IT and consulting, I have a proven track record of delivering impactful solutions for pharmaceutical clients. My ability to manage cross-cultural teams and navigate complex business challenges enables me to drive innovation and add value to organizations.
